# INTRODUCTION

# ABOUT US

**CARRY THE LOAD** is a non-profit organization that provides active ways to connect Americans to the sacrifices made by our military, veterans, first responders and their families.

- Carry The Load started as a grassroots effort by two Veteran U.S. Navy SEALs to restore the true meaning of Memorial Day.
- More than a decade later, Carry The Load has turned into a year-round, nationwide movement to honor and remember the service and sacrifice of our nation's heroes.

## TIMELINE

## OUR MISSION

To provide an active way to honor and celebrate our nation's heroes by connecting Americans to the sacrifices made by Military, Veterans, First Responders and their families.

## OUR VISION

Our vision is for all Americans to participate in honoring the sacrifices made by our nation's heroes.

## OUR GOALS

- To raise awareness of those who sacrifice for us daily by providing Americans an active way to remember, honor and celebrate them.
- To raise funds to be distributed to non-profit partners who provide healing services for the mind, body and soul of our warriors.
- To inspire patriotism in our youth by educating them about the American flag and the sacrifices made to honor it.

## OUR LOGO

Our current logo was developed in 2011. It has evolved minimally over the years to keep up with the ever changing market, but overall it has stayed true to its original form.

The graphic element is a pair of servicemen. One is carrying the other across his shoulders. Both are walking out of a field of blue and red. Flanking the servicemen on either side are the words CARRY THE LOAD. The typeface used is a clean military style stencil and block font. All but the servicemen who are breaking out of the top, are contained within a round box.

The tag line below the logo reads "WHO ARE YOU CARRYING?". This supporting typeface is a minimal sans serif and it is used to reinforce and elevate the logo.

# LOGO GUIDELINES

# EXCLUSION ZONE

It is very important that the Carry The Load logo maintain its legibility and not be covered or encroached upon in any application.

The minimum exclusion zone for our logo is based on the width of the letter "C" in the word "CARRY". Do not allow any type of graphic element to infringe into or on top of this area. Avoid crowding the logo into small spaces or against other elements.

On all sides, the exclusion zone should be measured from the farthest edge of the logo. No elements may encroach on this space except with approved branding for departments. Use good judgment when positioning the logo to ensure it's value and integrity.

\*\*Exceptions can be made when using the logo for apparel purposes. Processes like adding vintage distressing, unique textures, or unforeseen future techniques are possible but require prior approval.

The Exclusion zone equals the width of the letter "C" in the word "CARRY".

# MINIMUM SIZE

To ensure that our logo is not used too small to be legible, there is a minimum size requirement. Never use the logo smaller than the minimum size without prior approval.

**The minimum size for the logo is 1.25 inches or 90 pixels wide.**

In rare instances, such as coins, pens, lapel pins, etc., it may be necessary to use the logo at less than minimum size. However, any such non-conforming application must be approved in advance.

There is no maximum size of the logo. However, use the logo judiciously. Do not enlarge simply to fill space—rather, allow space around the logo to provide emphasis.

Minimum Size  
1.25 inches or 90 pixels wide

## ALTERNATE LOGO

Minimum Sizes can be an issue. The alternate logo option without the tag line can be a good alternative for tight spaces, but use of this logo needs prior approval. This is not the preferred way of displaying the Carry The Load logo.

Minimum Size  
1.25 inches or 90 pixels wide

# OUR COLORS

The patriotic color palette will play prominently into our brand moving forward. Dark blue and gold are the foundational colors and should be dominant in the majority of branded documents.

**The minimum embroidery size for the logo is 2.5 inches or 65 mm.**

How is the embroidery logo different from the standard logo:

- **DROP SHADOW REMOVED** - The black drop shadow has been removed from the words "CARRY" & "LOAD".
- **SIMPLIFIED DETAILS** - Many details in the servicemen have been removed or simplified.
- **ENLARGED LINES** - The line weights around the servicemen have a increased.
- **LETTER SPACING WIDENED** - The kerning of the word "THE" has been opened up.
- **ENLARGED REGISTRATION MARK**
