

ALWAYS REMEMBER

The overall death toll from the attacks stands at 2,977 — including 2,753 killed as a result of the attacks at the World Trade Center, 184 killed at the Pentagon and 40 killed in the crash of United Airlines Flight 93 in Pennsylvania.

The death toll does not include the 19 hijackers aboard the four jetliners that crashed at the attack sites. The World Trade Center death toll includes three victims who died of respiratory disease months to years after 9/11.

The list includes the victims' names, ages and hometowns if available, affiliations of victims at the World Trade Center and the sites of their deaths. Always Remember by finding a name on the list, download and write their name on the bib provided and learn something about them that you can teach others. Walk in honor of their memory.

Share your experience on social media with #CarryTheLoad #AlwaysRemember #PatriotDay
